The only agenda item was to review new signage for Watson & Weldy Financial Planning, located at 6788 Providence Street. They are proposing raised acrylic lettering above the door to fit in an existing panel. Two options were provided and a final choice will depend on how the existing panel was constructed and painted. Option 1 (preferred) is approximately 42” long by 24” high and Option 2 is approximately 28” long and 16’ high.

Motion by Louann Artiaga, seconded by Jeff Yoder to approve both options, with final decision based on what will best fit within the existing panel. 3 ayes

A brief discussion followed as to whether the Design Review Board would continue. Mayor and Council are still considering this.

With no further business to come before the DRB, Jeff Yoder moved to adjourn and Louann Artiaga seconded. 3 ayes. Meeting adjourned at 6:45 pm.

Respectfully submitted,
